

JE-300

Nano Particle Portable Fire Extinguisher

Features:

JE-300 Nano Particle portable fire extinguisher represents a state-of-the-art efficient green fire extinguisher product in the world. As the world's smallest portable fire extinguisher, JE-300 portable fire extinguisher is easy to operate and free of pressurized container, and requires no annual inspection and maintenance. Its new nano particle extinguishing agent has high extinguishing efficiency which are non-toxic, harmless, environment friendly, safe and reliable with only a few residue after discharge. JE-300 portable fire extinguisher can operate normally at a temperature ranging from -40°C to 75°C. As the perfect substitute for traditional extinguishers, JE-300 portable fire extinguisher can extinguish fire in such applications as security and protection, residential use, outdoors, shopping malls, office premises and automobiles.

Application:

JE-300 Nano Particle portable fire extinguisher is suitable for extinguishing incipient fire in different scenarios:

- 1、 A must gear for security gatekeepers of government agencies, schools, enterprises and public institutions as well as safety officers at railways and buses;
- 2、 Emergency equipment for homes, offices, hotels, transport vehicles, cars and yachts;
- 3、 Fire extinguishment for incipient class A fire, fire of polyester materials , B, C and incipient fire of electrical equipment.

Operation instruction:

Please strictly follow below steps when using JE-300:

- 1、 Hold the handle of the fire extinguisher and aim the nozzle at the base of fire;
- 2、 Pull the manual safety ring at the bottom of the fire extinguisher;
- 3、 Press the start button;
- 4、 Spray at the base of fire until it goes out.

Product Model and Technical Specifications:

Product model	Effective discharge distance	Discharge time	Fire extinguishing performance	Length	Max. diameter	Extinguishing agent quantity	Net weight	Service life
JE-300 portable fire extinguisher	3m	≥8s	34B	236mm	136mm	300g	2250 ± 20g	5 years
